Reuter or Nasr-ed-deen?

The presence in Europe, and more especially in England, of Nasr-ed-deen, successor of Darius, has, as might be expected, given rise to much speculation. Amongst all the theories propounded, perhaps the following is not undeserving of consideration. Baron Julius de Reuter was born in Germany, more than half a century ago. He lives in London, and, in connection with the transmission of intelligence by all the most approved modes of the time, his name has long been a household word in Europe. Electricity, the carrier-pigeon, the steam-packet, the man, the horse, in short, every available agency and force, have been subsidized by the indefatigable Reuter for the conveyance of news. His wealth and power have grown apace with his reputation. Last year he obtained concessions from the Shah of Persia which, although they attracted little attention at the time, have been rendered intensely interesting by the Shah's visit. The concessions are thus summarised: Baron Reuter has obtained the exclusive privilege of building a railway between the Caspian and the Persian Gulf, as well as any other railways he may think fit. He may appropriate the Government land needed in the work, without the payment of a dime; the stone, gravel, sand, etc., are to be furnished gratis; all the material imported is to be free from duty or tax of any kind whatsoever; any mine situate on government land (with the exception of gold, silver and precious stone), may be appropriated by the concessionaire free of charge, his sole obligation being to hand over to the Government 15 per cent. of the net proceeds. Banks, gas companies, road, telegraph, mill, manufacturing pavement and forge companies, must come to Reuter for royal permission, before their enterprise can be begun. Even the post-offices and custom-houses of Persia are to be subject to this insatiable commercial despot. And, in addition to all this, after this road of 400 miles has been constructed, the Shah guarantees the payment of seven per cent—five per cent. for interest, and two per cent. for sinking fund—on a loan of $30,000,000, which the enterprising Reuter will be permitted to borrow from anybody who will lend it to him. It is alleged that the Shah is in Europe at the bidding of the astute Reuter, into whose hands the successor of Darius has at once put the sceptre of Persia and the key of India, and that his presence in England is nothing more than a huge advertising dodge intended to assist the operator in borrowing the money to carry out his enterprise. It is further alleged that John Bull's eyes are opening to the significance of the march Reuter has stolen upon him while he slept, and that his efforts to charm this oriental Modoc are made with an ill defined object of rectifying the unpardonable oversight. It is, of course, impossible to decide how far this theory is correct; but that there is much plausibility about it seems undeniable.

Is it Open?

It has been assumed by many that the Treaty of Washington opened the door of the United States to the product of our fisheries. It would now appear to be doubtful whether such is really the case. It seems quite certain that the United States officials in the neighboring Territory refuse free admission. The twenty-first article of the aforesaid Treaty reads as follows:—"It is agreed that, for the term of years mentioned in Article XXXIII. of this Treaty, fish oil, and fish of all kinds, (except fish of the inland lakes and of rivers falling into them, and except fish preserved in oil,) being the produce of the fisheries of the United States, or of the Dominion of Canada, or of Prince Edward's Island shall be admitted into each country, respectively free of duty." At the first blush one might conclude that under this article, British Columbia is entitled to a free market in the United States for the product of her sea fisheries; but, on reflection, it seems doubtful. It will be observed that the Dominion of Canada and Prince Edward Island are specifically mentioned and set out as being entitled to the benefits of the Treaty in this respect. British Columbia is not named. Now, the question seems to be, "Was British Columbia a part of the Dominion of Canada when the Treaty was made?" It is to be feared that a comparison of dates must lead to the conclusion that she was not, and, consequently, that she is excluded, technically, at least, from the benefits of this provision. The Treaty was made on the 8th May, 1871. British Columbia did not become a part of Canada till the 20th July,—two months and twelve days after the Treaty was made. It would not seem unreasonable to conclude, therefore, that, inasmuch as British Columbia was not a part of the Dominion of Canada at the time of the making of the Treaty, it would, like Prince Edward Island, have to be specifically named; and that, inasmuch as it was not specified, it is debarred from the operations of the Treaty in this respect. Indeed, there is too much reason for believing that, in so far as the Treaty bears upon the fisheries, British Columbia was altogether overlooked; for in the article specifying the British fishing grounds which are to be thrown open to American fishermen, British Columbia is never mentioned. If these conclusions should turn out to be correct, and if the United States Government should take advantage of this technical omission in the wording of the Treaty, it will be a serious loss and a great injustice to this Province.

Police Court.

WEDNESDAY, July 23d.

In re Dwyer's Murder.— Mr. Courtney appeared for the prosecution and Mr. McCreight for the defence.

Mr. Hy. Rhodes, Hawaiian Consul, was sworn as interpreter.

Muann, a Kanaka, sworn—Know all the prisoners; knew Dwyer and his wife; he heard that they had been killed; on Thursday previous saw Charley up to noon fishing in a canoe; did not see him that afternoon.

T. G. Murphy sworn — Recollected a conversation with Charley, the prisoner, on Sunday, May 25th; in answer to my question as to where he had been on the afternoon of Thursday, he said he had been hunting round Dwyer's place; I asked him if he had seen Dwyer that day, he said no; I asked him if he had killed anything, he said no. He said himself, Tom and Kikie were together all that day hunting; he said he had not been fishing that day and that he had not been with Joe; I asked him where his shoes were, he said he had had no shoes for two or three months and that the shoes he had on were made in Johnson street; he offered to point out the man who had made them.

Cross-examined by Mr. McCreight—We spoke part in English and part in Chinook; he did not say he was fishing that day; prisoner can speak English very well; This conversation was on the first Sunday after the arrest; Joe was arrested on the 23d May; I was not in Court when Charley made his statement.

Mr. McCreight observed that the evidence left the case where it was. The point which in to-day's evidence it had been sought to make was on a contradiction of statements. Prisoner made no secret about going out fishing. It is possible that Mr. Murphy had made a mistake. Prisoner said he was hunting all that day, which in Chinook may mean the greater part of the day. He did not say he had not been firshing. In seeking to prove why there was no more than one boot-track a point was intended to be made against the prisoner. Now, he submitted that if there was no boot-track, there must have been a foot-mark of some sort, so that this point, also, fell to the ground. On such evidence there could not be a possibility of convicting the prisoner. This evidence should have been given earlier.

Mr. Courtney said that Charley had contradicted Mary Carney's evidence; [Counsel here read that witness evidence] which proves that Charley went out with a gun in the afternoon.

His Honor remarked that since 9th of June nothing had come up to convict the prisoner. Were this Indian a white man there would have been a clamor against keeping him confined. He could see no other course open but to discharge the prisoner.

At the request of Mr. McCreight, Inspector Bowden's deposition was read.

Insp. Bowden sworn — Deposed that Kill said that Joe was telling lies; he said so more than once; didn't know how many times. This was when Joe was telling Kill that he (Kill). had murdered Fuller.

Mr. McCreight observed that this statement made by one man to another, accusing the other, unless acquiesed in by the accused party, was worthless as evidence —Joe did not say 'yes;' he said, 'you lie.' The demeanor of the prisoner decided such evidence, and in this case it was in favor of the prisoner.

His Honor remanded Kill for one week, when, if no further evidence was forthcoming, he said he should dismiss him.

INDIAN WHISKY SELLING.

H. F. S. Stewart, charged with supplying intoxicating liquor to Indians on the 18th inst., convicted and admitted to bail on his own recognizances, not appearing, was sentenced to six months' imprisonment with hard labor.

Lecture on British Columbia

Ven. Charles T. Woods, M. A., Archdeacon of Columbia, is doing brave service in England in behalf of the Province. He has just been having what he calls "A Talk about the Ways, the Works, the Wants of British Columbia," at Hope Hall, Liverpool, with a large audience. The lecture was so well thought of that it was afterwards issued in pamphlet form and a large number struck off for gratuitous circulation. The rev. lecturer gives a very accurate description of the Province, its resources and its temporal as well as spiritual wants, its people, their mode of life, temptations and difficulties, and ends with an earnest appeal for aid in shedding the light of Christianity upon the remotest quaters of British Columbia.

Weekly British Colonist.

This valuable paper, recently enlarged, containing a great amount of interesting reading matter, may be had at the publication office and the bookstores, ready for mailing by the Prince Alfred.

MILITARY ACADEMY. — Competent officers for the scientific branches of an army, viz: for the artillery, engineers and staff, are only to be obtained after a long course of hard study, severe training and close application. Is it, therefore, too much to expect that the Dominion Government will establish a military school for this Province and give our fellow provincials an opportunity of military training?

DIOCESAN VISITATION. The Rt. Rev. Bishop Seghers has sailed in the steamship California for Sitka, Kodiac and the Aleutian Islands (and if possible the Asiatic Coast,) for the purpose of establishing Catholic Missions in those remote parts, which are included in the diocese of Vancouver Island. The right reverend gentlemen will be absent several weeks.

OVERDUE.—The bark Delaware from Victoria, and the ship Windemere, from Liverpool, had not arrived at Honolulu on the 20th ult. Both were overdue.

We, the undersigned, electors and inhabitants of Esquimalt Town and District, purpose to hold a public meeting at Selleck's Hotel, Esquimalt Town, on Friday evening, July 25th, inst., at 7 p. m., to discuss the Dry Dock question and the policy of the Local Government in respect to said question, and we respectfully request your attendance.

Lower Fraser.

A hay-press, manufactured by Mr. Jos. Spratt, of the Albion Foundry, Victoria, is doing excellent work on Ladner's farm, South Arm.

At Chilliwhack the mowing machines and horse-rakes were sweeping over the face of that magnificent prairie. The The Douglas church had been brought down and will be re-built on a site domted by Mr. Kipp.

The run of salmon is very great, and the catch is proportionately large.

The weather is highly favorable to crops, and the yield will be unprecedentedly large.

The farmers in this district have received circulars accompanied by forms to be filled up, from the Minister of Short-bits and Cabbages. Although printed, not written, the orthography is bad and the arrangement worse.

Messrs. A. Loggie & Co. are working energetically in order to secure the full advantage of the fine "run" of salmon. They have quite a number of hands employed, and their storehouse is rapidly filling up with cans for the home or foreign market.

Mr. George Black's farm house, near Coquitlam River, was burned to the ground yesterday. A considerable quantity of tools, bedding, etc., etc., was destroyed. We believe the building was not insured.

The growth of litigousness in New Westminster is deplored by the press.

The *Guardian* says, Amongst those who received the honor of knighthood on the Queen's Birthday for distinguished public services, was Vice-Admiral George St. Vincent King, C. B., brother of Mrs. Hills, now resident amongst us. Sir George is brother of Sir Richard King, Bart., who is head of the family.

The same paper says, The Rev. Samuel Gli on, late Archdeacon of Vancouver and Rector of St. John's, Victoria, has just been appointed Professor of Divinity at Lenoxville College in the Province of Quebec.

REV. W. PUNSHON.—On the 10th. ult. a service was held in City road Chapel London, at 2 30 p m., when Dr Punshon, who had just returned from Canada, preached in aid of the New Wesleyan Chapel in Westminister, and collection was made, amounting to £2,025 5s. The chapel, which is intended to be a memorial to late Rev. John Scott, who was twice President of the Conference and for many years Principal of the Wesleyan Training College, was opened in April, 1872, at a cost of upwards of £20,000 the expense of the site alone being £11,000. The Conference of 1872, finding the debt on the chapel had not been cleared of, requested and authorized the Rev. Gervase Smith, M. A. (whose great energy and skill had been proved by the rapid development and extension of the Metropolitan chapel building fund, of which he is secretary) to obtain the necessary contributions. One part of Mr Smith's scheme for clearing off the debt, which has proved so successful, was this service to be held by Dr Punshon as soon as possible after his return from Canada. The preacher took as his text Psalm cxxxii 8, 9. Arise, O Lord, into Thy rest; Thou, and the ark of Thy strength. Let Thy priests be clothed with righteousness; and let Thy saints shout for joy."

TRAIN ROBBED.—An account of an extraordinary robbery on the Pacific Railroad was telegraphed yesterday. A band of robbers placed obstructions on the track and when the engineer reversed the engine they shot and killed him. They then appropriated the contents of the express safe and made off. Passengers who left San Francisco for the East on Thursday last were on board.

BASE BALL. — The Victoria Base Ball Club are practising regularly, and now produce a better team than ever before. They have used every means in their power to once more try their skill with the invulnerable Washingtons of Olympia, W. T., (their last year's opponent,) but as yet without success — the Washingtons not seeming over anxious to accept any overtures from the Victoria Club.

H. M. S. REPULSE. — Messrs. Janion, Rhodes & Co. received letters from their correspondents at Honolulu, S. I., dated June 20th, which stated that H. M. S. Repulse would sail for Esquimalt on the 27th June; from which it is inferred that the flagship was in port there at the date of writing.

BOAT RACE.—At 5 o'clock this afternoon, in Esquimalt harbor, there will be a race between the cutter of H.M.S. Tenedos and the cutter of H.M.S. Reindeer, from H. M. S. Boxer around Magazine Island and back to the Boxer. Stakes $100 aside.

THE "R. COWAN."—The brig R. Cowan, Capt. Revelly, has arrived at Honolulu, 30 days from Callao, and was loading for Sydney on the 20th June.

THE foundation stone of Metchosin Church will be laid by Mrs Hills at 3:30 o'clock to-day.

WANTED.—The Victoria Board of School Trustees advertise for an assistant teacher for the boys' department. Salary $75.

STEAM BOOK AND JOB PRINTING at THE COLONIST OFFICE. Send in your orders.

THE bark Star of Jamaica from Victoria reached San Francisco yesterday.

Municipal Council.

WEDNESDAY, July 23d.

The Council met at 7:30, His Worship the Mayor presiding.

COMMUNICATIONS.

From S. Drapeau, of the Agricultural Department, Ottawa, asking for a birds-eye view of Victoria, photograph 8 to 12 inches, with a list of the municipal and civil officers, etc. Request granted.

From a number of ratepayers complaining of the blocking of the street by the material for the Federal buildings. Referred to Street Committee.

From B. W. Pearse, drawing the attention of the Council to the broad acres of thistles in the rear of the Royal Hospital.

From W. Bond asking permission to tap a well near Medina's Grove. Granted.

From R. Andrews asking permission to sink a well on lots 59 and 60, Spring Ridge. Granted.

From G A. Meldrum, complaining of pound bill for feeding certain cattle impounded. Received and filed.

FINANCE.

Accounts from Thos. Craigie, $12; R. Jones, $12; J. Reynolds, $6; G. Wilkinson, $12; Thos. Speed, $12. Referred to Finance Committee.

PUBLIC LANDS.

Coun. Drummond moved to petition the Federal Government to transfer certain public lands and Beacon Hill for the use of the citizens of Victoria. Coun. Drummond, in support of his motion, advocated the interests of Victoria in the various reservations round the city.

Coun. Gowen did not advise the asking for the whole of the reservations as they were not required.

Coun. Morton thought Victoria would some day grow beyond Cedar Hill, and that then it would be advisable to have that land public property.

The motion was carried, and Councillors Drummond, Morton and Gowen appointed to carry out its object.

FINANCE STATEMENT.

His Worship stated that the Council had paid off nearly $4000 of old debts and had still a balance in hand of $1000.

CULVERT.

Coun. Morton moved that the Street Committee be empowered to place a brick culvert where Douglas street passes the ravine.

SURVEY.

It was decided to survey Rae, Quadra and Kane streets with a view to asking tenders for grading and gravelling them.

SANITARY MEASURE.

Coun. Morton said that, although he would advocate every possible sanitary measure, he could not but reprobate the writer of an editorial in the *Standard* of today, from which he read a quotation. He condemned the publication of such a tissue of falsehoods. Victoria had never been so cleanly as it was at present.

Coun. Taylor remarked that that journal had been constantly nagging at the Council. It was a miserable way of venting its spleen for disappointment of office.

Coun. Morton moved that property-holders be notified to remove any filth that might be about their premises; but the Council could not see the necessity of incurring the expense on such a groundless complaint.

Adjourned.

PITT LAKE.—Pitt Lake is situated about ten or twelve miles north of this city, as the crow flies, it waters passing into the Fraser through Pitt River, which joins our "highway" about six miles above this city, opposite Manson Island. Through most of its length, Pitt River runs through flat and fertile meadow land, which, however, is partially overflowed during the summer freshet. The shores of the lake are in strong contrast with those of the river. Abrupt, rocky mountains, down the sides of which numerous miniature cataracts leap and foam, hem it in on all sides. Until very lately the lake was solitary, save when a stray Indian "paddled his own canoe" across it, in search of game or fish; but quite recently five logging camps have been established on its shores, and the work of getting out lumber for the mills is going on briskly. During the past few days the steamer Cariboo-Fly has towed down two large booms from the camps of Messrs. W. & C., and H. DeBeck.—*N. W. Herald.*

FROM NEW WESTMINSTER.—The steamer Enterprise, with H. M. Mails, Barnard's Express and the following passengers, arrived from New Westminster at 5 p. m. yesterday: Bishop and Mrs. Hills, Mrs. Oppenheimer, Hon. W. J. Armstrong, Mr. S. Duck, M.P.P., and Messrs. J. Cunningham, G. Oppenheimer, L. Oppenheimer, J. Kirkland, Booth, Maloney, Myers, Gaches, Conley.

The Terminus Hunt.

EDITOR COLONIST.—On the faith of a rumor that a telegram had been received in official quarters, ordering the immediate location of the Western Terminus of the C.P. Railway, in the innocence of my heart, I determined to go with the crowd and see what was to be seen.

Meeting a few choice spirits all bent on the same patriotic errand of taking part in the inauguration of the greatest event that was to happen in the history of the Dominion, we made up our party and started in good spirits, everything going lovely until we neared the junction of the Craigflower and Esquimalt roads.

Then commenced a division of opinion as to the proper route to be taken. Fortunately this slight disturbance to the harmony of the proceedings was soon disposed of, for at this point we met a colored boy who informed us that he had been employed by the Railway bosses to convey their tools to Esquimalt and that he had left them at Howard's.

Not being thoroughly satisfied with this youth's information we pulled up at the New Inn, but "Mine Host" could give us no additional information.

We were just on the point of starting, when we thought we had struck a dead thing, for the lean boss of the organ hove in sight, but it appeared that he was far more benighted than we were, having spent some time prospecting round Constance Cove, without making and discoveries. Nothing remained for us but to proceed to Howard's. Our spirits began to flag, for something was mentioned about a sod, and none of our party could guess where in that locality they could find one to turn.

Arriving at Howard's our spirits again rose, for we found the Local Government strongly represented. After enjoying the well-known [?] hospitality of the Chief Commissioner of Lands & Works, and having time to go back on our reflective faculties, we noticed the absence of our energetic Lieut.-Governor from this festive scene.

We then came to the conclusion that so far as the legitimate object of our journey was concerned the whole thing was a bilk. We thought that by watching the actions of the Government party, they might afford some indication of coming events. But, no! Now whether it was from the heat of the sun, or the combined influence of the Terminus and Dry Dock fizzle that made the Premier and his two Portfolios look so red in the face, I do not know; but I for one woke up the following morning with the firm impression that the Dominion Government, or somebody else, ought to pay the expenses of

Yours truly,

THE "COLONIST'S" SPECIAL DISPATCHES.

LAST NIGHT'S DISPATCHES.

Eastern States.

DES MOINES, Iowa, July 22---An extraordinary daring robbery of a railway train was committed last night on the Chicago, Rock Island and Pacific R.R. At this point there is a sharp curve in the road where the robbers had placed heavy timbers across the track. The engineer saw the obstruction in time to reverse his engine and apply air-brakes; but the robbers observing the movement fired at him from an ambush and shot him dead. The engine then went off the track and was followed by one baggage car. The passenger cars remained on the track. Several passengers were bruised but none seriously hurt. The robbers who were masked, after obtaining and emptying the safe of express messages and contents, rode off on horseback. Among the passengers were thirty Chinese students en-route for Springfield, Mass.

CHICAGO, July 22---The members of the Dominion Cabinet authorize the Toronto *Mail* to deny the charges made against them by McMullen and his associates in correspondence published. The *Mail* says that the statement therein made that the Government or any member of it was a party to any agreement, political or other concerning the award of the charter and construction of the contracts are entirely false. The Government promises to make all the facts of the case known at an early day.

DES MOINES, Iowa, June 22.—A thousand conjectures are current in regard to the persons who robbed the train on the Chicago Rock Island Pacific R.R. last night. The most generally received belief is that they were persons living in the neighborhood. Vigilant parties are scouring the southwestern country, and it is confidently believed that the robbers will be caught if they remain in this State. A telegram received late last night says: They crossed Burlington and Missouri last night, and the Railroad Co. offers a reward of five thousand dollars for their detection. Governor Carpenter has issued a proclamation to-day, offering a reward of five hundred dollars for the arrest of each person engaged in the robbery.

NEW YORK, July 22.---The statement that there will be no investigation by the deacons and trustees of the Plymouth Church relative to the Bowen Tilton scandal is untrue. The trial has only been postponed on account of the absence of Beecher and a number of the committee. In the Fall the charges filed against Bowen and Tilton will be fully investigated.

BALTIMORE, July 22—Doctress Mary Walker was arrested here to-day for appearing in men's clothing; but was afterwards released.

NEW YORK, July 22.---Some of the survivors of the lost steamship Atlantic having begun suit in the Supreme Court of this State against the owners of the Atlantic to recover value for their baggage lost and damages for injury done to themselves, the Ocean Steam Navigation Co. filed a petition in the U. S. District Court setting forth that they are willing to pay into court the amount of losses on the steamer during her voyage, and asked that its liabilities be limited to that amount. Judge Blatchford granted the order in conformity with the petition, and ordered the court to take testimony in the matter.

Cuba.

HAVANA, July 22.---The Spanish conservatives of Havana sent to Madrid by last mail, a petition to be presented to the Cortes, in which they pray that so long as a single armed rebel remains who cries "death to Spaniards," and till sufficient time has elapsed for the complete re establishment of tranquility in Cuba, no reformers will be introduced that are likely to produce disturbances which would only be favorable to Rebels.

European Mail Summary.

[DATES TO JUNE 26TH.]

Persons who are curious in matters of etiquette will like to know that at his first interview with the Queen in Windsor Castle, the Shah kissed Her Majesty's hand, while, at the same time, putting round her neck the ribbon of richly jewelled decoration of the new Persian order of the Sun.

The Royal Geographical Society decided to make the Shah an honorary fellow of their Society, if his Majesty will accept of the honor.

A great meeting in support of Mr. Plimsoll was held at Bristol on June 21; Mr. Sholto Vere Hare presiding. The hon. member for Derby spoke at some length, and a resolution was passed deploring the great sacrifice of human life every year at sea, and calling upon the Legislature to prevent the overloading or sending of unseaworthy ships to sea.

There was a strong probability that in a few days a dispute in the cotton trade at Ashton would have produced a strike and lock-out on an extensive scale. The employers met and resolved that unless the strippers and grinders withdrew their notices, seven days' notice should be given to all the workpeople employed in the spinning mills to cease work. The operatives met and determined to adhere to their notices. The effect would probably be "to stop about one-tenth of the spinning trade of the country."

Some time between ten o'clock on the night of the 23rd June and four o'clock next morning eight stand of arms (rifles) were taken from the sleeping-room in the temporary barracks of the South Cork Light Infantry Militia, in Bandon Workhouse. There were ten men and a sergeant sleeping in the room. The rifles were all right at ten o'clock at night, and at four next morning they were missed. The rack in which the arms were standing directly over where the sergeant was sleeping, and it was alleged that they could not have been removed without the person removing them standing on the sergeant's bed. There was a corporal and four privates on guard, and it was alleged that the arms could not have been taken away without passing the spot where these men were on guard. The corporal of the guard, with the sergeant and occupants of the sleeping apartments, had been placed under arrest.

Medical.

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in theraputics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hœmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the stricture that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectora Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomonia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonine Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. No reference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure Iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

Debentures.

Applications will be received at the office of the undersigned until the 21st day of July for the SECOND ISSUE of Water Works Debentures, and should application be made for more in amount than the issue authorized by the Act, they will be distributed pro rata.

The Debentures will be issued at par as follows, viz:

$10,000.....On 15th May, 1873;
15,000.....On 1st August, 1873;
75,000.....On 1st April, 1874;

Payable in Twenty-five years from the date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time the said Debentures, for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased shall be decided by a ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. The Debentures will bear interest at the rate of Seven per cent. per annum, payable Half-yearly, and Cupons will be attached to each Debenture for said Interest, which shall be paid on presentation as they become due.

The Security offered for Repayment of Debentures is as follows:

A preferential Lien will be given on all works to be erected, also upon the land and other property acquired for Water Works purposes, and on the Revenue (amounting to about fifty thousand dollars per annum) which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures.

A deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no Engineering difficulties in carrying out the undertaking.

Forms of application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner.

C. Francis Barnard, M. D.

SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.
